This map of street art murals presents 40 art works by local and visiting artists painted over the last 40 years.

Mural painting has established itself around the world as a hallmark of the urban experience. It now has global reach but the expressions of identity captured here reflects the unique essence of Aotearoa, and Tāmaki Makaurau (Auckland). Themes here explore Māori culture and sovereignty, Pacific migration, protest, and popular culture and the aesthetics of the city's many cultures.

While the most recent works were completed in 2026, the earliest mural reaches back to 1986, making it the oldest existing piece of street art in the city. Contemporary approaches are exploding art off the walls with neon and three dimensional elements.

Thank you to all the artists who have helped shape the city into a reflection of their own lives, their communities and experiences - the city is richer for it.

Supported by Auckland Council and the city centre targeted rate.
